

MURAT ENGIZ

PRODUCT DESIGNER

I've parlayed a background in film directing into a product design approach to create well composed and aesthetic UX designs; seeking to work with passionate individuals to help organizations transform user problems into improved solutions

Projects

CINEPHANT-*Movie Ticketing App*

Designed and appropriated a movie ticketing app that was meant to resolve a limiting payment function into multiple options of payment to enhance user experience

OBJECTIVE- *Responsive Web Design & Mobile Adaptation*

Created a networking website for photographers to build and grow their business, make professional connections, share content, and find projects in their field

HOMIE- *Social Good Project for Homeless Youth*

Research the homeless youth issue and built the Homie app- a digital wallet that provides an ID and cash cards for homeless people, helping them back into society by making it easier to find work, spend their earnings on safe goods, commute, and stay healthy.
